

What does French look like at The Roebuck School?

Children learn through practical and interactive activities, which develop their language skills and encourage them to find out more about the culture.

What do we do in French at The Roebuck School?

French is taught weekly with the support of an interactive programme called 'Salut', which allows the children to listen, repeat and practise. The children learn grammar through a wide range of topics. We study; introductions, numbers, animals, body parts, clothing, hobbies, weather, directions and sports.

Le Français à Roebuck

Events and Learning Opportunities

In addition to a wide range of practical lessons, children have the opportunity to attend French club. The children play board and interactive games. In addition to this we have a themed French day to raise engagement across the community where the children sample French foods, play games, practise their conversational skills.

"I like being able to say good morning in French"
