

## The Roebuck School

### Curriculum Intent Statement

At The Roebuck School, our curriculum is driven by the need to prepare our children for life in modern Britain. Through their knowledge of British values, our children learn to understand, appreciate and respect differences in the world and in its people and we use the diversity of the children in our school to celebrate cultural and religious differences. We aim to provide opportunities for our children to develop as independent, confident and successful learners with high aspirations by offering a rich curriculum designed to inspire enthusiasm for learning as well as to ensure achievement and to support the well-being and happiness of all our pupils.

The Roebuck School provides a highly inclusive environment where pupils at all levels are helped to achieve their potential. Those who are most able are challenged and are encouraged to expand their skills and knowledge through varied curriculum opportunities. Those who find learning more difficult are encouraged and given targeted support to embed skills, to develop at their own pace and to learn in a style that best suits their individual needs.

The focus on curriculum development at our school is carefully designed to ensure coverage and progression across the year groups. It provides pupils with memorable experiences, in addition to diverse and rich opportunities from which children can learn and develop a range of transferable skills. Across all subjects, we aim to develop and build the vocabulary of our learners, ensuring that they are able to verbally express themselves with rich and varied language in both their academic learning and their day to day conversations.
